ANA PAOLA ESTRADA RODRÍGUEZ

Sports photographer · Content creator · Computer engineer

Chihuahua, MX · +52 614 602 6040 · anaestrgz@gmail.com · ana-estrada-fotografia.vercel.app · @anawithacamera_ · LinkedIn

Self-taught sports photographer and computer engineer. Former student-athlete, now coaching women's soccer. I tell stories of sport in Mexico and South Korea, focused on women's sport and backed by data.

EDUCATION

B.S. in Computer Science and Technology · Tecnológico de Monterrey — 2022–2026

- GPA 96.73/100 · Varsity soccer athletic scholarship

Exchange, Data Science & Visual Storytelling · Sungkyunkwan University, Seoul — Aug–Dec 2025

- Global Korea Scholarship (GKS) exchange program

SPORTS MEDIA

Freelance sports photographer · Mexico and South Korea — 2024–present

- Cover games, races and tournaments with photo galleries, highlight videos and social posts
- 12 events, 6 sports: LNBP Women's Basketball, KUSF Finals 2025 (Seoul), Mexico City Marathon, team roping
- Adelitas de Chihuahua (LNBP): 150+ photos and a highlight video; posts reached up to 8,080 organic views

Video editor and content manager · Carlos E. Fin, personal-finance YouTube channel — Aug 2026–present

- Film and edit videos and plan the channel's publishing calendar

Media intern · Tec de Monterrey — 2024

- Managed the campus's official social media (14,600+ monthly views) and live tournament coverage

COACHING

Assistant coach, women's soccer · Tec de Monterrey, Campus Chihuahua — Aug 2026–present

- Support training sessions and match days for the women's varsity team
- Collect match data by hand into a database to analyze each player's performance
- Former student-athlete: 17 years of soccer on athletic scholarship

TECHNOLOGY AND DATA

Co-founder and COO · Kinalia, AI and data consulting — Jul 2026–present

- Developing Rope Master, an app to manage team roping and rodeo events, already tested at live roping events
- Building partnerships with event organizers and roping series

Web development intern · Mentory Grupo Consultor — Feb 2026–present

- Improve the company website with React and JavaScript

Data projects

- Cement strength prediction for GCC: XGBoost model on lab data with about 2.7% error
- AI chatbot for network operations for GNS, built with LangGraph
